TRAIL INFORMATION
AT YOUR FINGER TIPS

WORKS WITH AND WITHOUT CELLULAR COVERAGE

Access valuable trail information while you are on the trails. Whether you are with or without cellular coverage, the 2018-2019 TrailApp is loaded with the information to ensure you enjoy your snowmobile experience to the max.

A COMPLETE TRAIL GUIDE IN THE PALM OF YOUR HANDS, INCLUDING:

Trail Map and Services information:
restaurants, gas, hotels, parkings, ...

Locate yourself on the map, anytime, anywhere

Works offline, even without cell coverage

Snow Tours

Trail Status

OFFLINE FEATURES

(AVAILABLE WITH OR WITHOUT DATA CONNECTION)

- » **Display all trail data**, parking and services. Get rich and useful contents on each map interactive item including touristic information, trail length, points of interest factsheets, etc.
- » **Trail status** is available offline, however, the status will only be current as of the last time the user was online.
- » Get your **exact GPS location** anytime, anywhere
- » Get the **distance between you and a selected destination** (as the crow flies)
- » Load your **saved trips/activities**

ONLINE FEATURES

(REQUIRE DATA CONNECTION)

All offline features, plus:

- » **Refresh and display** the latest trail/trail status data, parking and services (saved for offline use later on)
- » **Share your location with your friend on the map.** You and your friends can follow each other's movements. To do this, you and your friends accept to share their location with each other through a setup. No one else can see your location
- » **Plan a trip** (Routing)
- » **Share trip** with others
